

Amateur Radio (HAM) Special Event at Texas Forest Museum, Lufkin, Tx

Deep East Texas Amateur Radio Club (DETARC) will be holding a Special Event at the Texas Forest Museum in Lufkin, TX. The radio club will have multiple radio stations set up in the beautiful red caboose located on the back of the museum property near the forest tower. The purpose to the event is to have fun, educate the public about amateur radio and the local radio club, as well as bring attention to the wonderful and dedicated Texas Forest Museum and staff that we have in our community. We will be broadcasting on multiple HAM radio bands and attempting to make as many contacts as possible throughout the day and will very likely have contacts that span across the North American continent and beyond. We invite the general public to visit the museum on this day and enjoy the wonderful exhibits as well as stop by the big red caboose and check on our progress as we work to bring the world, via amateur radio waves, to the Texas Forest Museum.
